

Streetblaster 150i-6

Fuel Injected 6 Cylinder Direct Port Injection Nitrous System

The Street-Blaster 150i-6 is a direct port system for 6 cylinder injected engines (please ask for carb versions) and benefits from **numerous unique features as standard** equipment, which offer **substantial advantages** over all other brands.

Features:

- Crossfire injectors.
- Latest specification market-leading X10 billet alloy solenoids.
- Micro bore nylon hose for maximum efficiency.
- EU specification nitrous bottle with FlowMax valve & SPRV.
- Laserlite QD nitrous bottle mounting system.
- Lifetime guarantee.

If you want a **simple to fit, well priced system that delivers maximum reliability and power**; the Street-Blaster 150i6 has been developed by WON with you in mind. This system is **for street and race use**, whether it be purely for the thrill or the more serious use of gaining a competitive edge. The Street-Blaster 150i6 can deliver a boost of up to 150bhp (or more if specified at point of order), **whenever you need a burst of acceleration**. Utilising the same high-quality components as our ultimate race, Pro-Series systems the Street-Blaster 150i6 offers peace of mind and impressive results at a very competitive price.
